

TUTIMA M2 PIONEER

A bold chronograph with super legibility, the M2 Pioneer watch is a professional timepiece that is ready to go the distance. The anti-magnetic watch houses the Tutima Caliber 521. The automatic chronograph movement with 25 jewels offers 44 hours of power reserve and displays the date, hour, minute, small seconds and complete chronograph, as well as offering a 24-hour display. The movement is protected from the forces of magnetism thanks to a soft iron inner case. Crafted in pearl-blasted titanium with a solid titanium bracelet, the 46.5mm watch is water resistant to 30 ATM thanks to its screw-in crown and integrated pushbuttons with neoprene inlay. The bi-directional rotating bezel features inserted luminescent capsules, and the watch is fitted with a sapphire crystal with anti-reflective coating for easy readability. It is sold with an additional Kevlar strap and changing kit. Retail: \$7,500

TUTIMA GRAND FLIEGER CLASSIC CHRONOGRAPH

Since its inception, Tutima has been all about precision and performance. This German-made brand, with an all-new state-of-the-art Manufacture in Glashutte, continues in the tradition that made it famous – creating substantial timepieces to exacting standards. Such is the case with the new Grand Flieger Classic Chronograph (Ref. 6402-01). Crafted in stainless steel, this bold beauty is a chronograph with date indication and sub-seconds hand – all situated on the velvet black dial (with red accents) in classic aviation form. The 43mm watch houses the automatic chronograph Tutima Caliber 320 with antique gray rotor, 25 jewels and 44 hours of power reserve. The watch is an officially certified German chronometer. The fluted bezel adds great form to superb function. Retail: \$5,700
