

GRAND FLIEGER CLASSIC CHRONOGRAPH

A vision of vintage styling and updated performance, this Grand Flieger Classic Chronograph is an officially certified German chronometer, according to DIN norm 8319. The coin-edge bidirectional rotating bezel gives the watch a nostalgic appeal, but the Tutima 320 automatic movement ensures incredible accuracy. The 43mm watch is crafted in stainless steel and is water resistant to 20 atm. The black dial is easy to read thanks to the white numerals and chronograph indications, as well as the signature red hands for the seconds. **Approx. \$5,100.**

M2 PIONEER CHRONOGRAPH

Rugged and precise, this German-made M2 Pioneer Chronograph has a bold appeal that - thanks to the red accents on the dial and the Kevlar strap - looks ready for action. The automatic chronograph caliber Tutima 521 powers the watch, which features integrated pushbuttons and a bidirectional rotating bezel. The 46.5mm case is crafted of solid pearl-blasted titanium. It is water resistant to 30atm. **Approx. \$6,100.**

M2 SEVEN SEAS

A vision of blue in honor of the oceans it heralds, this M2 Seven Seas automatic watch features a warm ocean-blue dial and blue accented black Kevlar strap. Powered by the Tutima Caliber 330, the 44mm pearl-blasted titanium watch offers day and date, and is equipped with Super-LumiNova hands and markers, as well as a lucent reference point on the unidirectional rotating, scaled bezel. It is water resistant to 50 Bar. **Approx. \$1,900.**
