

TUTIMA

SAXON ONE AUTOMATIC ROYAL BLUE - \$3,800
SAXON ONE CHRONOGRAPH ROYAL BLUE - \$6,500

Tutima presents two Saxon One models with royal blue dials. The 42-mm Saxon One Automatic Royal Blue is animated by an ETA 2836 movement with a Tutima rotor. The Saxon One Chronograph Royal Blue is 1 mm larger and receives its energy from a radically modified ETA Valjoux 7750. Tutima's revisions enable the caliber to power both a readily legible elapsed-minutes display from the dial's center and an additional 24-hour indicator at 12. Each model has a window of sapphire in the back of its case. The cases are watertight to 200 meters.
